Subject: RE: Flooding issues at Falcon Refinery Superfund Site

Good afternoon Jonathon

I am the Remedial Project Manager for the Falcon Refinery Site. EPA needs confirmation that the facility is secured for the ongoing flooding in your area. Please indicate the actions being taken to secure the facility to prevent a release of any product into the environment. Please reply back to me and Gary Moore about the status of the Site as soon as possible.

Thank You,

Brian W. Mueller
Remedial Project Manager
EPA Region 6
